Tue, 23 Aug 2016 09:59:00 GMT Beginner DSLR Lessons - Digital SLR Guide - My shutter speed in this image: 1/30th second. What is a Camera Shutter? Shutter speed exists because of something known as your camera shutter â€“ which, simply put, is a curtain in front of the camera sensor that stays closed until the camera fires. When the camera fires, the shutter opens and fully exposes the camera sensor to the light that has passed through your lens. Understanding Shutter Speed for Beginners - Photography Life - The more challenging the shooting environment, the better the camera needs to be. Photography is all about capturing light and situations with very little light can provide a challenge for even the best of cameras. Here is some info on what makes a good low light camera and some
